Spirit Stone Images

For Explorer Staffs and up

*Nature is the awesome handiwork of the Great Spirit.
Humanity is a part of nature and in Nature, all things are connected.*

CFIS 2020

The following animals are taken from the natural world of the First Nation People of North America. Most of the animal symbols fall into the three main divisions of the animal world, Land, Water and Sky, but also there is a fourth which crosses those boundaries of the main three, this includes the Insects and Reptiles.

You can pick from any of the four divisions an animal that best describes you, (your personality) the animal that you pick does not necessarily have to match your Patrol Pennant. In other words everyone in your Patrol can have a different Spirit Stone in their staff.

The location for the Spirit Stone is above your Patrol Pennant as close to the top of your staff as possible located on the opposite side to where your Patrol Pennant is mounted to your staff.

Below is an outline of the main characteristics for each animal category, but each Spirit Stone has its own meanings.

Land Animals - reflect - Power, Speed, Alertness and Protection

Sky - Animals - reflect - Awareness, Hope, Inspiration, Spirituality and Wisdom

Water Animals - reflect - Creativity, Intuition, Imagination, playfulness and Healing

Insects and Reptiles - reflect - Organization, Beauty, Conservation and Protection

Booklet is designed to be cut in half and stapled together
